OF WOODTURNERS

ABOUT THE AMERICAN ASSOCIATION OF WOODTURNERS

Nonprofit and with an international membership, the American Association of Woodturners (AAW) is the largest organization in the world dedicated to the advancement of woodturning. We currently have over 16,000 members, and 365 affiliated local chapters. AAW's mission is to provide education, information and organization to those interested in woodturning--a branch of woodworking centered on using the lathe to shape wood. The results range from the familiar to the profound: everything from decorative and functional bowls, boxes and vessels to furniture and architectural spindles, toys, tools, musical instruments, even sculptural art. Members of the AAW include professionals, amateurs, gallery owners, collectors and wood and tool suppliers.

Our Annual Symposium

This year's Symposium is projected to be attended by over 2,000 attendees, invited guests, and public admissions. The annual AAW International Symposium is an intensely informative, fun-filled event held in a different region of the country each year. Three days are packed with demonstrations by internationally renowned and local woodturners, art galleries and design workshops, as well as professional panel discussions on marketing, technical and aesthetic development, safety and legal topics. The AAW trade show will be the largest assemblage of woodturning exhibitors anywhere in the world and will be a central feature of the event; admission is free and open to all. Through our market research, the trade show closely follows the educational woodturning break-out sessions as the next-most important factor driving symposium attendance. Over 90% of registered attendees have reported making a trade show purchase. The symposium also includes tours of local destinations, three evenings of programmed social activities, and multiple auctions of donated member art, tools and supplies. Through local and regional promotions, the AAW's marketing efforts will extend our reach to attract attendance at all of our free attractions including the Trade Show, by individuals who are not registered attendees but who do have interest in woodworking and arts and crafts.

- 95% of registered members attending the 2019 AAW Symposium reported making a purchase in the Trade Show.
- 62+% reported spending \$250 or more
- 68% rated the Symposium Trade Show as one of the most important elements to them in their Symposium experience. (Above statistics from 2019 AAW Symposium Attendee Survey)

The Symposium

The 2020 Symposium is scheduled for June 4-7 at the Kentucky Expo Center, Louisville, KY.

This requirement is to mutually protect the interests of the AAW and each Exhibitor against risk of liability arising out of foreseeable and unforeseeable events. The general liability policy must name the AAW as additional insured, in the amount of not less than \$300,000 for injury to each person, not less than \$1,000,000 for each accident and not less than \$100,000 property damage for each accident, to protect against possible claims arising out of the operation of his booth. The Exhibitor expressly understands and agrees that the foregoing clauses apply not only during the exhibit hours, but also at all other hours of the day for the period extending from the commencement of installation until the final removal of all the Exhibitor's property and personnel from the Exhibition Hall and to any latent contingent damage, injuries, or liability arising or discovered at a later date as the results of or arising out of exhibitor's participation in the Exhibition.

Additional Requirements, Chemicals: Chemical products commonly used by individuals in woodworking processes including adhesives and wood finishing products will be allowed. These chemicals may be used in educational demonstrations and may be made available for sale in the trade show, even though they may be classified as hazardous under various transportation, flight and environmental regulations statutes. On request by AAW, exhibitors intending to sell and/or demonstrate the application of any hazardous chemical products may be required to furnish to AAW in advance of the event a complete listing of MSDS for all such products brought into RCC. When demonstrating the application of embellishment products such as, but limited to, paint, stain, dye and all other chemical used in demonstrations Exhibitors are strongly encouraged to use only non-VOC products. As responsible participants at our symposium, Exhibitors help support AAW's commitment to educate all woodturners by promoting and encouraging safe woodturning practices in the tradeshow.

EXHIBIT TERMS AND CONDITIONS

page 3 of 3

Booth and Table-Top Safety Regulations: The AAW values its partnership with vendors and exhibitors participating in the symposium tradeshow. Working together, we help educate attendees on the safe use of woodturning equipment. Attendees appreciate the ability to see equipment, tools, and other products, and it is incumbent upon vendors and meeting organizers to ensure a safe experience while demonstrating equipment, products, and tools. For the safety of symposium attendees and vendor staff, the following safety policies will be followed:

- Each lathe that will be used for demonstrating to an audience will have an audience safety shield that is large enough to protect the audience assembled in front of the lathe. All exhibitors offering live demonstrations will have an approved Audience Protection Shield (APS), built in accordance with AAW's recommended safety shield specifications, or equivalent. The shield will be suitably positioned and large enough to protect the size of audience expected. This includes any turning, cutting, grinding, or other activities that can create flying debris. If you are unsure how large or how the shield should be constructed, please contact AAW.

Exhibitors who do not use an approved audience safety shield for demonstrations will not be permitted to demonstrate until they have a safety shield in place. The AAW does not provide safety shields for exhibitors.

- All demonstrators will use appropriate Personal Protective Equipment (PPE) for the task at hand. All exhibitor demonstrators are required to wear a full face shield at all times when operating a lathe. Suitable shoes are also required for foot protection. At a minimum, eye protection is required for any demonstration involving cutting, grinding, sawing, or other potentially hazardous operations. All exhibitor demonstrators who do not wear the approved PPE will be asked one time to wear the approved PPE, and if in violation a second time will no longer be allowed to demonstrate. The AAW does not provide full face shields.
- Any other booth and table-top personnel that are not demonstrating will have and use appropriate PPE protection when in the area of activity. Anyone joining the demonstration will be supplied with appropriate PPE for the task at hand. This includes eye, face, footwear, and dust protection equipment as needed.
- Any exhibitor who allows attendees to test products, equipment or allows attendees out of the area protecting them by an audience safety shield, such as behind the lathe is responsible for the attendee to be properly supplied with PPE and to follow all proper safety procedures. The exhibitor will be in attendance for the duration of the "testing".
- Exhibitors will have ongoing clean-up of all chips and debris generated to provide for safe passage of attendees. This includes the exhibitor's booth or table, public aisles and neighboring exhibitor spaces. NOTE: The exhibitor is responsible for bringing necessary cleaning equipment (broom, dustpan, etc.) – these will not be supplied by the AAW or the Convention Center. Waste and recycling cans will be made available as necessary.
- We encourage a minimum amount of sanding operations in the Trade Show. If you intend to use abrasives or other procedures that generate airborne dust, use of a suitable dust extractor is required. Exhibitors will be responsible to minimize dust hazards within their own booths, and must also eliminate any airborne dust drifting to adjacent booths.
- Exhibitors will be responsible to keep a safe working environment during set up and tear down, including placement of materials, avoiding tripping hazards such as cords/hand trucks/moving dollies, tools and equipment, etc. Packing debris, paper/ padding, or other discarded items will be removed from floor and aisle areas to minimize chances of accidents or injuries due to tripping, slipping, etc.
- No open flames, hot plates, butane flames, microwaves or sandblasting cabinets are allowed.
- Convention Center rules prohibit exhibitors from distributing any food products.
- Health and Safety regulations require all attendees, vendors, and related personnel to have appropriate attire, including shirts and footwear. Persons lacking shirts or footwear will not be permitted entry to the Trade Show or other areas of the Convention Center.
- It is the policy of the AAW that the process known as Fractal Burning is prohibited from being used at the AAW Symposium. The display of woodturnings embellished by the Fractal Burning process is prohibited during the Symposium. Further, the process of Fractal Burning shall not be featured in any written or on-line AAW publication, except within articles that warn against its use. AAW publications will not accept advertisements for any products or supplies directly related to the process.

Signing below acknowledges I have read and agreed to comply with all Exhibit Terms and Conditions.

2020 AAW INTERNATIONAL SYMPOSIUM ADDITIONAL SPONSOR AND MARKETING OPTIONS

Each year the world of woodturners gathers — The event is expected to draw a combined, approximate 2,000 registered attendees, regional woodturning enthusiasts and general public. Several sponsorship opportunities exist with this event. They include:

Registration Packet Insert

Cost: \$250 per insert + cost of insert

Supply a quantity of a single (8½" × 11" or smaller) information sheet, flyer, coupon or piece of your company literature (subject to AAW approval) in the registration packets and gain maximum exposure to all attendees. The silent auction offers attendees an affordable alternative to the more prestigious live auctions and it contributes essential funding to benefit our ongoing AAW educational services and publications. AAW encourages all exhibitors to donate an item to the Silent Auction. Since the majority of Symposium attendees are woodturners, many people prefer the chance to bid on non-turned alternatives – tools, equipment, branded-wear clothing, unique experiences, etc. This is another avenue to get your brand, products and/or services visibly positioned in front of attendees. All Silent Auction items will be prominently displayed in the Instant Gallery until Saturday evening, when they are moved into the dinner hall for the auction close. To donate an item, please contact Linda Ferber at linda@woodturner.org or 651-484-9094. Exhibitors who donate to the Silent Auction will be recognized on the AAW App and with appropriate mentions provided during the Symposium.

General Terms & Conditions

It is agreed that the term “advertiser” within the Insertion Order and these General Terms & Conditions refers to the entity purchasing the advertisement space. This entity, the advertiser, is listed on the Insertion Order. It is also agreed that the term “publisher” refers to the entity producing the publication, the American Association of Woodturners.

Submitting a signed Insertion Order constitutes a formal reservation from the advertiser for the advertisement specified in the Insertion Order and agreement to these General Terms & Conditions.

Advertisements must be placed during a six-issue period for frequency discounts to apply.

Submitting a signed Insertion Order constitutes the advertiser’s agreement to submit necessary artwork (correct to specifications) no later than the due date specified by the Insertion Order. Should the advertiser not submit artwork by the listed due date, the advertiser understands that either 1) the publisher will use previously submitted art or 2) the advertisement will not appear in the publication. The advertiser also understands that they are still obligated to pay the full advertisement rate as listed in the Insertion Order.

Should submitted artwork not meet the specifications, it is fully the advertiser’s responsibility to make the necessary changes to make the artwork correct to specifications and to submit the revised artwork no later than the due date specified by the Insertion Order. Should an advertiser’s artwork not meet specifications and the advertiser not be able to submit new artwork correct to specifications by the listed due date, the advertiser understands that they will be obligated to pay any production costs required to make their artwork correct to specifications or the advertisement will not be included in the publication. The advertiser also understands that, should their advertisement not appear in the publication due to incorrect artwork, they are still obligated to pay the full advertisement rate as listed in the Insertion Order.

Should an advertisement resemble editorial copy, the advertiser agrees that it will carry the word “Advertisement” and the publisher’s editorial typeface (Adobe Garamond) will not be used.

The advertiser agrees that all submitted artwork will be free of copyright.

The publisher is not responsible for errors in advertiser artwork.

Publisher’s liability in the event of a publisher error within an ad will be limited to publishing the ad once correctly at no additional charge.

The advertiser agrees to protect, indemnify, and hold harmless the publisher and its agents against any and all claims arising from the look and the content of the advertiser’s advertisement.

The advertiser agrees that all advertisements are subject to the approval of the publisher. The publisher reserves the right to refuse advertisement purchases or artwork for any reason including a conflict with the intent of the publication or the organization. Should the publisher refuse the advertiser’s artwork, it is fully the advertiser’s responsibility to make the necessary changes to make the artwork acceptable to the publisher and to submit the revised artwork no later than the due date specified by the Insertion Order. Should an advertiser’s artwork be refused by the publisher and the advertiser not be able to submit new artwork by the listed due date, the advertisement will not be included in the publication. Should this happen, the advertiser understands that their advertisement will not appear in the publication. The advertiser also understands that they are still obligated to pay the full advertisement rate as listed in the Insertion Order.

Advertisers will be invoiced following the printing of the publication. Invoices are payable within 30 days. A 1-1/2% interest charge per month will be assessed on all balances over 30 days.

Cancellation of any portion of the Insertion Order voids any frequency discount.

Cover and Preferred placements are non-cancellable.

Other cancellations must be made prior to an issue’s deadline.
